Issued: January 25, 2000

For: BIOLOGICALLY ACTIVE
DIMERIZED AND
MULTIMERIZED POLYPEPTIDE
FUSIONS

**REQUEST FOR
CERTIFICATE OF CORRECTION**

Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

APPROVED
Mar 9, 2002
FOR THE DIRECTOR OF USPTO
[Signature]

Pursuant to 37 CFR § 1.322, Applicants submit a Certificate of Correction correcting an error made at the time of printing of the patent. The desired correction is set forth on form PTO-1050 enclosed.

The error for which correction is requested is the deletion of the word "heavy" in the last line (col. 100, line 42) of issued claim 12, and the insertion of the word "light" therefore. Issued claim 12 was claim 39 during prosecution.

The error is readily apparent from the prosecution history. In the Examiner's amendment accompanying the Notice of Allowability (Paper No. 12), the Examiner indicated that claim 39 would be amended at line 5 to replace "light" with "heavy." This amendment was intended to change the phrase "joined to an immunoglobulin *light* chain constant region; and an immunoglobulin light chain" to the phrase "joined to an immunoglobulin *heavy* chain constant region; and an immunoglobulin light chain" (emphasis added). (See Paper No. 7, Amendment filed March 29, 1999, page 3, for line numbering.) In claim 12 of the issued patent, both instances of the word "light" were changed to "heavy." Claim 12 should read,

ANDRZEJ Z. SLEDZIEWSKI et al.
Patent No.: 6,018,026
Page 2

PATENT

inter alia, "joined to an immunoglobulin *heavy* chain constant region; and an immunoglobulin *light chain*" (emphasis added). Correction of this error is respectfully requested.

This error is not due to the fault of Applicants. Please charge (or credit) any fees associated with this request to the firm's Deposit Account No. 20-1430.

Respectfully submitted,

Dated: 3/25/02

By: Mark G. Sandbaken
